### Instructions

Minutes are used to document club meetings in order to hold a record of any expenditures or action items requiring approval or future reference. They also serve as proof of your club's existence on our campus.

Name all the attendees in the Club Members Present section. Attach your sign in sheet if there are too many names.

Old Business are agenda topics that you talked about at a prior meeting that are being addressed at this new meeting.

New Business are the new agenda topics presented at this meeting. You only need brief notes about the discussions of each. Highlight any disbursements talked about.

Your president or other leader of the meeting should end the meeting by motioning to adjourn the meeting or approve the meeting minutes. This should be seconded by the second in command.

Turn in Minutes forms to the ASB room no later than 3 days after the meetings.
